## & His Collection

## showcases in Brisbane

An exhibition of Pablo Picasso's personal art collection was held at Brisbane's Gallery of Modern Art recently, and staff in Investec's Brisbane office hosted a cocktail evening and private viewing for 150 clients and their partners.

Featuring over 100 works from Picasso's collection that he acquired patiently and passionately - plus more than 80 works by Picasso himself - this was the first time the exhibition of Picasso's personal art collection was held outside of Europe.

Brisbane's Jeff Miller said the signature event was complementary to Investec's Super 14 rugby sponsorship as part of a strategy to engage with clients and prospects at both sporting and cultural events.

Investec also had specialist art adviser Viola Bolot provide an insight into Picasso & His Collection and educate guests on art as an investment class.
